

OLAWALE OMOOGUN

FULL STACK WEB DEVELOPER

omoogunolawale@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | [AngelList](#)

SUMMARY

Motivated full-stack and mobile app developer with experience in Ruby, JavaScript, their frameworks, development, testing, and maintenance of software systems. I am innately curious with the ability to learn new technologies and concept quickly.

TECHNICAL SKILLS

JavaScript, Ruby, MySQL, PostgreSQL, MongoDB, React, Redux, Ruby on Rails, Laravel, Flutter.

TECHNICAL PROJECTS

Doctor Appointment – GitHub: ([Frontend](#), [Backend](#)) | [Demo](#)

Stack (Ruby on Rails, ReactJs, Redux, PostgreSQL)

An appointment app that allows authenticated and authorized users to book and cancel appointment with a doctor.

- Developed user interface with ReactJs and architect backend with Ruby on Rails.
- Implemented user authentication and authorization with Devise and CanCanCan.
- Maintained state and persistence of state with Redux and Redux-Persist
- Deployed user interface on Netlify and API on Heroku.

Stock Metrics – GitHub: ([Frontend](#)) | [Demo](#)

Stack (ReactJs, Redux)

A metric-based web app that gives updates on volume of shares traded in the stock market

- Developed user interface with ReactJs
- Leveraged third party APIs to dynamically render available stock exchanges and volume of stocks traded per exchange.
- Utilized third party APIs to list companies and share volumes
- Implemented state management with Redux.

WORK EXPERIENCE

MICROVERSE

Mentor (Volunteer)

Remote

July, 2021 – August, 2021

- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization for code improvement and optimization.

PATAKIVENUE LIMITED

Full Stack Developer

December, 2017 – January, 2020

- Built dynamic user interfaces with mobile first approach.
- Leveraged third party library to implement mail notification with PHP.
- Created key microservices like Authentication service, Authorization service and Reservation service.
- Continual improvement to system architecture by refactoring old legacy code.

LONEBAGS

Full Stack Developer

March, 2018 – March, 2019

- Responsible for publishing codes on live shared hosting server.
- Implemented payment microservice with Paystack API.

EDUCATION

MICROVERSE

May, 2021 – January 2022

Remote Full Stack Web Development Program, Full Time

- Obtained my Full Stack developer certificate in Ruby on Rails and React.
- Developed skills in remote pair-programming using GitHub, Gitflow and performing daily standups with teams.

University of Lagos Akoka (UNILAG)

M.Eng., Metallurgical and Materials Engineering

January, 2016 – February, 2017

- Numerical Analysis.

Federal University of Technology Akure (FUTA)

B.Eng., Metallurgical and Materials Engineering

September, 2007 – October, 2012

- Numerical Analysis.
